be	caus	e:				
		the said international not require an interna	application, or the said claims Nos. relate to the following subject matter which does tional preliminary examination (<i>specify</i>):			
		the description, claim that no meaningful op	s or drawings (indicate particular elements below) or said claims Nos. are so unclear vinion could be formed (specify):			
		the claims, or said cla	ims Nos. are so inadequately supported by the description that no meaningful opinion			
	\boxtimes	no international searc	h report has been established for the said claims Nos. 1-102.			
	and/	eaningful international or amino acid sequen uctions:	preliminary examination cannot be carried out due to the failure of the nucleotide ce listing to comply with the standard provided for in Annex C of the Administrative			
		the written form has n	ot been furnished or does not comply with the standard.			
			e form has not been furnished or does not comply with the standard.			

Re Item I

Basis of the report

The present report is based on amended claims 1 to 102 filed with the letter of 1). 09.08.2001 in replacement of claims 1 to 230 as originally filed.

According to the applicant's submission new claims 1 to 52 are meant to replace old claims 1 to 67. New claims 53 to 95 and 99 to 102 are meant to replace old claims 68 to 131 and 208 to 227. New claims 96 to 98 are meant to replace old claims 132 to 207, and old claims 228 to 230 are cancelled without prejudice.

Re Item III

Non-establishment of opinion with regard to novelty, inventive step and industrial applicability

2). Present claims 1-102, after amendments by addition, replacement and/or deletion, relate to subject-matter in respect of which no International Search Report has been established and have therefore not been the subject-matter of International Preliminary Examination (Rule 70.2(d)(PCT)).

As stated in the International Search Report a meaningful search of the whole of the scope of the claims has proved impossible and, instead, a partial search has been carried out on the subject-matter of a "remote transaction system using ATM, PC or internet for homebanking, where a tailored user interface is provided for each financial institute". Document US-A-4 484 304 relates to such a concept and was therefore considered to read on originally filed claims 1,2,68,69,132,208.
